CONTENTS

Volume 32 Number 1

Stefan Andersson, S. Ingvar Nilsson and **Peter Saetre**	1	Leaching of dissolved organic carbon (DOC) and dissolved organic nitrogen (DON) in mor humus as affected by temperature and pH
Kerry C. Carson, Jean-Marie Meyer and **Michael J. Dilworth**	11	Hydroxamate siderophores of root nodule bacteria
A. Farenhorst, E. Topp, B. T. Bowman and **A. D. Tomlin**	23	Earthworms and the dissipation and distribution of atrazine in the soil profile
M. B. Rayment and **P. G. Jarvis**	35	Temporal and spatial variation of soil CO_2 efflux in a Canadian boreal forest
Jian Chen and **John M. Stark**	47	Plant species effects and carbon and nitrogen cycling in a sagebrush–crested wheatgrass soil
Chandini M. Thirukkumaran and **Dennis Parkinson**	59	Microbial respiration, biomass, metabolic quotient and litter decomposition in a lodgepole pine forest floor amended with nitrogen and phosphorous fertilizers
C. Arnaud, M. Saint-Denis, J. F. Narbonne, P. Soler and **D. Ribera**	67	Influences of different standardised test methods on biochemical responses in the earthworm *Eisenia fetida andrei*
A. Parshotam, S. Saggar, P. L. Searle, B. K. Daly, G. P. Sparling and **R. L. Parfitt**	75	Carbon residence times obtained from labelled ryegrass decomposition in soils under contrasting environmental conditions
Kazuhito Itoh, Miho Fujita, Kazuo Kumano, Kousuke Suyama and **Hiroki Yamamoto**	85	Phenolic acids affect transformations of chlorophenols by a Coriolus versicolor laccase
Jens Dauber and **Volkmar Wolters**	93	Microbial activity and functional diversity in the mounds of three different ant species
Miloslav Šimek, Jim E. Cooper, Tomáš Picek and **Hana Šantrůčková**	101	Denitrification in arable soils in relation to their physico-chemical properties and fertilization practice
Sachindra Nath Mondal Mitsuro Hyakumachi	111	Soil factors affecting carbon loss and pathogenecity of oospores of *Pythium aphanidermatum*
J. Scullion and **A. Malik**	119	Earthworm activity affecting organic matter, aggregation and microbial activity in soils restored after opencast mining for coal
N. Sanginga, G. Thottappilly and **K. Dashiell**	127	Effectiveness of rhizobia nodulating recent promiscuous soyabean selections in the moist savanna of Nigeria
Short communications		
G. E. Harper and **A. Stewart**	135	Magnetic separation technique for the isolation of sclerotia of *Sclerotium cepivorum* from iron-rich soil particles
Torsten Harden and **Rainer Georg Joergensen**	139	Relationship between simulated spatial variability and some estimates of microbial biomass turnover
	I	Forthcoming Papers

Volume 32 Number 2

A. Fierro, D. A. Angers and **C. J. Beauchamp**	143	Decomposition of paper de-inking sludge in a sandpit minesoil during its revegetation
G. M. Berntson and **J. D. Aber**	151	Fast nitrate immobilization in N saturated temperate forest soils
H. P. Collins, E. T. Elliott, K. Paustian, L. G. Bundy, W. A. Dick, D. R. Huggins, A. J. M. Smucker and **E. A. Paul**	157	Soil carbon pools and fluxes in long-term corn belt agroecosystems
M. T. Taranto, M. A. Adams and **P. J. Polglase**	169	Sequential fractionation and characterisation (^{31}P-NMR) of phosphorus-amended soils in *Banksia integrifolia* (L.f.) woodland and adjacent pasture

Susanne Krämer and **Douglas M. Green**	179	Acid and alkaline phosphatase dynamics and their relationship to soil microclimate in a semiarid woodland
Bradley P. Degens, Louis A. Schipper, Graham P. Sparling and **Maja Vojvodic-Vukovic**	189	Decreases in organic C reserves in soils can reduce the catabolic diversity of soil microbial communities
Christian Kampichler, Sašo Džeroski and **Ralf Wieland**	197	Application of machine learning techniques to the analysis of soil ecological data bases: relationships between habitat features and Collembolan community characteristics
R. J. Haynes	211	Labile organic matter as an indicator of organic matter quality in arable and pastoral soils in New Zealand
P. C. Mielnick and **William A. Dugas**	221	Soil CO_2 flux in a tallgrass prairie
I. Wolf and **R. Russow**	229	Different pathways of formation of N_2O, N_2 and NO in black earth soil
Heike Knicker, Michael W. I. Schmidt and **Ingrid Kögel-Knabner**	241	Nature of organic nitrogen in fine particle size separates of sandy soils of highly industrialized areas as revealed by NMR spectroscopy
Louise M. Donnison, Gwyn S. Griffith, John Hedger, Phil J. Hobbs and **Richard D. Bardgett**	253	Management influences on soil microbial communities and their function in botanically diverse haymeadows of northern England and Wales
Alexei V. Tiunov and **Stefan Scheu**	265	Microbial biomass, biovolume and respiration in *Lumbricus terrestris* L. cast material of different age
Janna Pietikäinen, Risto Hiukka and **Hannu Fritze**	277	Does short-term heating of forest humus change its properties as a substrate for microbes?
Short communication **Louise M. Donnison, Gwyn S. Griffith** and **Richard D. Bardgett**	289	Determinants of fungal growth and activity in botanically diverse haymeadows: effects of litter type and fertilizer additions
	I	Forthcoming Papers
	III	Guide for Authors

Volume 32 Number 3

M. Aoyama, D. A. Angers, A. N'Dayegamiye and **N. Bissonnette**	295	Metabolism of ^{13}C-labeled glucose in aggregates from soils with manure application
E. A. Webster, J. A. Chudek and **D. W. Hopkins**	301	Carbon transformations during decomposition of different components of plant leaves in soil
Lázaro Molina, Cayo Ramos, Estrella Duque, M. Carmen Ronchel, Juan M. García, Lene Wyke and **Juan L. Ramos**	315	Survival of *Pseudomonas putida* KT2440 in soil and in the rhizosphere of plants under greenhouse and environmental conditions
J. M. Sutherland, D. W. Odee, G. M. Muluvi, S. G. McInroy and **A. Patel**	323	Single and multi-strain rhizobial inoculation of African acacias in nursery conditions
M. McInerney and **T. Bolger**	335	Temperature, wetting cycles and soil texture effects on carbon and nitrogen dynamics in stabilized earthworm casts
M. A. McLean and **D. Parkinson**	351	Field evidence of the effects of the epigeic earthworm *Dendrobaena octaedra* on the microfungal community in pine forest floor
Dean A. Martens	361	Plant residue biochemistry regulates soil carbon cycling and carbon sequestration
Pierre-André Jacinthe, Warren A. Dick and **Larry C. Brown**	371	Bioremediation of nitrate-contaminated shallow soils and waters via water table management techniques: evolution and release of nitrous oxide
Amar M. Chaudri, Kirsten Lawlor, Sara Preston, Graeme I. Paton, Ken Killham and **Steve P. McGrath**	383	Response of a Rhizobium-based luminescence biosensor to Zn and Cu in soil solutions from sewage sludge treated soils

Rahima Abdelhafid, Sabine Houot and **Enrique Barriuso** 389 Dependence of atrazine degradation on C and N availability in adapted and non-adapted soils

Margret M. I. Van Vuuren, David Robinson, Charles M. Scrimgeour, John A. Raven and **Alastair H. Fitter** 403 Decomposition of ^{13}C-labelled wheat root systems following growth at different CO_2 concentrations

Short communications

S. Nardi, D. Pizzeghello, C. Gessa, L. Ferrarese, L. Trainotti and **G. Casadoro** 415 A low molecular weight humic fraction on nitrate uptake and protein synthesis in maize seedlings

J.-G. Fuchs, Y. Moënne-Loccoz and **G. Défago** 421 The laboratory medium used to grow biocontrol *Pseudomonas* sp. Pf153 influences its subsequent ability to protect cucumber from black root rot

S. Hodge, K. M. Webster, L. Booth, V. Hepplethwaite and **K. O'Halloran** 425 Non-avoidance of organophosphate insecticides by the earthworm *Aporrectodea caliginosa* (*lumbricidae*)

Amar M. Chaudri, Kirsten Lawlor and **Steve P. McGrath** 429 Pentachlorophenol utilization by indigenous soil microorganisms

Pete Falloon, Pete Smith, Kevin Coleman and **Stewart Marshall** 433 How important is inert organic matter for predictive soil carbon modelling using the Rothamsted carbon model?

X. Yan, S. Shi, L. Du and **G. Xing** 437 Pathways of N_2O emission from rice paddy soil

I Forthcoming Papers

Volume 32 Number 4

David A. Lipson, Steven K. Schmidt and **Russell K. Monson** 441 Carbon availability and temperature control the post-snowmelt decline in alpine soil microbial biomass

J. H. van Ginkel, A. Gorissen and **D. Polci** 449 Elevated atmospheric carbon dioxide concentration: effects of increased carbon input in a *Lolium perenne* soil on microorganisms and decomposition

Helene A. Hilger, David F. Cranford and **Morton A. Barlaz** 457 Methane oxidation and microbial exopolymer production in landfill cover soil

A. J. Franzluebbers, J. A. Stuedemann, H. H. Schomberg and **S. R. Wilkinson** 469 Soil organic C and N pools under long-term pasture management in the Southern Piedmont USA

A. Farenhorst, E. Topp, B. T. Bowman and **A. D. Tomlin** 479 Earthworm burrowing and feeding activity and the potential for atrazine transport by preferential flow

Christine Conn and **John Dighton** 489 Litter quality influences on decomposition, ectomycorrhizal community structure and mycorrhizal root surface acid phosphatase activity

J. Luo, R. W. Tillman and **P. R. Ball** 497 Nitrogen loss through denitrification in a soil under pasture in New Zealand

T. K. Jana, A. K. Srivastva, K. Csery and **D. K. Arora** 511 Agglutination potential of *Pseudomonas fluorescens* in relation to energy stress and colonization of *Macrophomina phaseolina*

S. K. Dubey and **J. S. Singh** 521 Spatio-temporal variation and effect of urea fertilization on methanotrophs in a tropical dryland rice field

Pierre Bottner, Marie-Madeleine Coûteaux, Jonathan M. Anderson, Björn Berg, Georges Billès, Tom Bolger, Hervé Casabianca, Joan Romanyà and **Pere Rovira** 527 Decomposition of ^{13}C-labelled plant material in a European 65–40° *latitudinal transect of coniferous forest soils: simulation of climate* change by translocation of soils

Göran Bengtsson and **Christer Bergwall** 545 Fate of ^{15}N labelled nitrate and ammonium in a fertilized forest soil

Varsha Narsian and **H. H. Patel** 559 *Aspergillus aculeatus* as a rock phosphate solubilizer

A. Daza, C. Santamaría, D. N. Rodríguez-Navarro, M. Camacho, R. Orive and **F. Temprano** 567 Perlite as a carrier for bacterial inoculants

Short communications

Mohammad Akhtar 573 Effect of organic and urea amendments in soil on nematode communities and plant growth

P. M. Chalk 577 Integrated effects of mineral nutrition on legume performance

I Forthcoming Papers

Volume 32 Number 5

E. G. Gregorich, B. C. Liang, C. F. Drury, A. F. Mackenzie and **W. B. McGill** 581 Elucidation of the source and turnover of water soluble and microbial biomass carbon in agricultural soils

H. Vierheilig, J. M. Garcia-Garrido, U. Wyss and **Y. Piché** 589 Systemic suppression of mycorrhizal colonization of barley roots already colonized by AM fungi

Alison H. Magill and **John D. Aber** 597 Variation in soil net mineralization rates with dissolved organic carbon additions

Alison H. Magill and **John D. Aber** 603 Dissolved organic carbon and nitrogen relationships in forest litter as affected by nitrogen deposition

Sabine Houot, Edward Topp, Abdellah Yassir and **Guy Soulas** 615 Dependence of accelerated degradation of atrazine on soil pH in French and Canadian soils

Magda C. Ferreira, Diva de S. Andrade, Ligia Maria de O. Chueire, Solange M. Takemura and **Mariangela Hungria** 627 Tillage method and crop rotation effects on the population sizes and diversity of bradyrhizobia nodulating soybean

Lasse D. Rasmussen, Søren J. Sørensen, Ralph R. Turner and **Tamar Barkay** 639 Application of a mer-lux biosensor for estimating bioavailable mercury in soil

Rainer Georg Joergensen 647 Ergosterol and microbial biomass in the rhizosphere of grassland soils

F. Hyodo, T. Inoue, J.-I. Azuma, I. Tayasu and **T. Abe** 653 Role of the mutualistic fungus in lignin degradation in the fungus-growing termite *Macrotermes gilvus* (*Isoptera; Macrotermitinae*)

L. Dendooven, E. Murphy and **D. S. Powlson** 659 Failure to simulate C and N mineralization in soil using biomass C-to-N ratios as measured by the fumigation extraction method?

Laura Paavolainen, Merlin Fox and **Aino Smolander** 669 Nitrification and denitrification in forest soil subjected to sprinkling infiltration

Webster D. Sakala, George Cadisch and **Ken E. Giller** 679 Interactions between residues of maize and pigeonpea and mineral N fertilizers during decomposition and N mineralization

S. D. Frey, E. T. Elliott, K. Paustian and **G. A. Peterson** 689 Fungal translocation as a mechanism for soil nitrogen inputs to surface residue decomposition in a no-tillage agroecosystem

Jeffrey A. Andrews, Roser Matamala, Kristi M. Westover and **William H. Schlesinger** 699 Temperature effects on the diversity of soil heterotrophs and the $\delta^{13}C$ of soil-respired CO_2

Inger K. Schmidt, Liliane Ruess, Erland Bååth, Anders Michelsen, Flemming Ekelund and **Sven Jonasson** 707 Long-term manipulation of the microbes and microfauna of two subarctic heaths by addition of fungicide, bactericide, carbon and fertilizer

Short communication

A. S. Ball, E. Milne and **B. G. Drake** 721 Elevated atmospheric-carbon dioxide concentration increases soil respiration in a mid-successional lowland forest

A. S. Grandy, M. S. Erich and **G. A. Porter** 725 Suitability of the anthrone–sulfuric acid reagent for determining water soluble carbohydrates in soil water extracts

Letter

Stephen R. Smith 729 *Rhizobium* in long-term metal contaminated soil

I Forthcoming Papers

Volume 32 Number 6

M. C. Leirós, C. Trasar-Cepeda, S. Seoane and **F. Gil-Sotres** 733 Biochemical properties of acid soils under climax vegetation (Atlantic oakwood) in an area of the European temperate–humid zone (Galicia, NW Spain): general parameters

C. Trasar-Cepeda, M. C. Leirós and **F. Gil-Sotres** 747 Biochemical properties of acid soils under climax vegetation (Atlantic oakwood) in an area of the European temperate–humid zone (Galicia, NW Spain): specific parameters

Andreas Fließbach and **Paul Mäder** 757 Microbial biomass and size-density fractions differ between soils of organic and conventional agricultural systems

Shigehiro Ishizuka, Tadashi Sakata and **Kazuhiro Ishizuka** 769 Methane oxidation in Japanese forest soils

Klaus Lorenz, Caroline M. Preston, Stephan Raspe, Ian K. Morrison and **Karl Heinz Feger** 779 Litter decomposition and humus characteristics in Canadian and German spruce ecosystems: information from tannin analysis and ^{13}C CPMAS NMR

G. Almendros, J. Dorado, F. J. González-Vila, M. J. Blanco and **U. Lankes** 793 ^{13}C NMR assessment of decomposition patterns during composting of forest and shrub biomass

Bernd Marschner and **Andrew D. Noble** 805 Chemical and biological processes leading to the neutralisation of acidity in soil incubated with litter materials

L. Calamai, I. Lozzi, G. Stotzky, P. Fusi and **G. G. Ristori** 815 Interaction of catalase with montmorillonite homoionic to cations with different hydrophobicity: effect on enzymatic activity and microbial utilization

Fabrizio De Cesare, Anna Maria V. Garzillo, Vincenzo Buonocore and **Luigi Badalucco** 825 Use of sonication for measuring acid phosphatase activity in soil

Liv Holtan-Hartwig, Peter Dörsch and **Lars Reier Bakken** 833 Comparison of denitrifying communities in organic soils: kinetics of NO^-_3 and N_2O reduction

Md. Akhter Hossain Chowdhury, Kenji Kouno, Tadao Ando and **Toshinori Nagaoka** 845 Microbial biomass, S mineralization and S uptake by African millet from soil amended with various composts

B. Brohon and **R. Gourdon** 853 Influence of soil microbial activity level on the determination of contaminated soil toxicity using Lumistox and MetPlate bioassays

Frank Schwieger, Tanja Dammann-Kalinowski, Uwe Dresing, Werner Selbitschka, Jean Charles Munch, Alfred Pühler, Mathias Keller and **Christoph C. Tebbe** 859 Field lysimeter investigation with luciferase-gene (luc)-tagged *Sinorhizobium meliloti* strains to evaluate the ecological significance of soil inoculation and a recA-mutation

J. Steer and **J. A. Harris** 869 Shifts in the microbial community in rhizosphere and non-rhizosphere soils during the growth of *Agrostis stolonifera*

Short communications

Håkan Marstorp, Xin Guan and **Ping Gong** 879 Relationship between dsDNA, chloroform labile C and ergosterol in soils of different organic matter contents and pH

Oili Kiikkilä, Taina Pennanen, Janna Pietikäinen, Kaj-Roger Hurme and **Hannu Fritze** 883 Some observations on the copper tolerance of bacterial communities determined by the (^3H)-thymidine incorporation method in heavy metal polluted humus

I Forthcoming Papers

Volume 32 Number 7

Nir Shapir, Raphi T. Mandelbaum and **Pinchas Fine**	887	Atrazine mineralization by indigenous and introduced *Pseudomonas* sp. strain ADP in sand irrigated with municipal wastewater and amended with composted sludge
Ralph E. J. Boerner, Kelly L. M. Decker and **Elaine Kennedy Sutherland**	899	Prescribed burning effects on soil enzyme activity in a southern Ohio hardwood forest: a landscape-scale analysis
Peter Saetre and **Erland Bååth**	909	Spatial variation and patterns of soil microbial community structure in a mixed spruce–birch stand
Grigorios Diamantidis, Aline Effosse, Patrick Potier and **René Bally**	919	Purification and characterization of the first bacterial laccase in the rhizospheric bacterium *Azospirillum lipoferum*
M. H. Garvín, C. Lattaud, D. Trigo and **P. Lavelle**	929	Activity of glycolytic enzymes in the gut of *Hormogaster elisae* (*Oligochaeta, Hormogastridae*)
M. D. Smith, D. C. Hartnett and **C. W. Rice**	935	Effects of long-term fungicide applications on microbial properties in tallgrass prairie soil
Markus Reichstein, Frank Bednorz, Gabriele Broll and **Thomas Kätterer**	947	Temperature dependence of carbon mineralisation: conclusions from a long-term incubation of subalpine soil samples
Eli Zaady, Uwe Kuhn, Burkhard Wilske, Lisseth Sandoval-Soto and **Jurgen Kesselmeier**	959	Patterns of CO_2 exchange in biological soil crusts of successional age
Lisa Bjørnlund, Flemming Ekelund, Søren Christensen, Carsten Suhr Jacobsen, Paul Henning Krogh and **Kaare Johnsen**	967	Interactions between saprotrophic fungi, bacteria and protozoa on decomposing wheat roots in soil influenced by the fungicide fenpropimorph (Corbel®): a field study
Amnat Chidthaisong and **Ralf Conrad**	977	Specificity of chloroform, 2-bromoethanesulfonate and fluoroacetate to inhibit methanogenesis and other anaerobic processes in anoxic rice field soil
Stepan Ruzicka, Deborah Edgerton, Mark Norman and **Tom Hill**	989	The utility of ergosterol as a bioindicator of fungi in temperate soils
Maria Antonietta Rao, Antonio Violante and **Liliana Gianfreda**	1007	Interaction of acid phosphatase with clays, organic molecules and organo-mineral complexes: kinetics and stability
G. Masciandaro, B. Ceccanti and **C. Garcia**	1015	"In situ" vermicomposting of biological sludges and impacts on soil quality
Short communications		
Ingvar Sundh, Gunnar Börjesson and **Anders Tunlid**	1025	Methane oxidation and phospholipid fatty acid composition in a podzolic soil profile
E. Johansson, C. Krantz-Rülcker, B. X. Zhang and **G. Öberg**	1029	Chlorination and biodegradation of lignin
S. L. Dodd, R. A. Hill and **A. Stewart**	1033	Control of *Athelia rolfsii* disease on lentil seedlings using 6-pentyl-α-pyrone
M. A. Bradford, P. Ineson, P. A. Wookey and **H. M. Lappin-Scott**	1035	Soil CH_4 oxidation: response to forest clearcutting and thinning
Stella M. Castro, Andrew R. Glenn and **Michael J. Dilworth**	1039	Substrate selection as a possible strategy for amelioration of acid pH by *Rhizobium leguminosarum* biovar viciae

Volume 32 Numbers 8–9

Katja A. Jacot, Andreas Lüscher, Josef Nösberger and **Ueli A. Hartwig**	1043	Symbiotic N_2 fixation of various legume species along an altitudinal gradient in the Swiss Alps
Roy Neilson, Brian Boag and **Michael Smith**	1053	Earthworm $\delta^{13}C$ and $\delta^{15}N$ analyses suggest that putative functional classifications of earthworms are site-specific and may also indicate habitat diversity
Siri Caspersen, Beatrix Waechter Alsanius, Peter Sundin and **Paul Jensén**	1063	Bacterial amelioration of ferulic acid toxicity to hydroponically grown lettuce (*Lactuca sativa* L.)

Kengo Morimoto, Kenji Tatsumi and **Ken-Ichi Kuroda**	1071	Peroxidase catalyzed co-polymerization of pentachlorophenol and a potential humic precursor
L. Côté, S. Brown, D. Paré, J. Fyles and **J. Bauhus**	1079	Dynamics of carbon and nitrogen mineralization in relation to stand type, stand age and soil texture in the boreal mixed wood
Sami Aikio, Henry Väre and **Rauni Strömmer**	1091	Soil microbial activity and biomass in the primary succession of a dry heath forest
P. C. Stark, K. I. Mullen, K. Banton, R. Russotti, D. Soran and **C. R. Kuske**	1101	Pre-PCR DNA quantitation of soil and sediment samples: method development and instrument design
C. Musvoto, B. M. Campbell and **H. Kirchmann**	1111	Decomposition and nutrient release from mango and miombo woodland litter in Zimbabwe
Gisela Wachinger, Sabine Fiedler, Kornelia Zepp, Andreas Gattinger, Michael Sommer and **Kurt Roth**	1121	Variability of soil methane production on the micro-scale: spatial association with hot spots of organic material and Archaeal populations
Andreas Fließbach, Paul Mäder and **Urs Niggli**	1131	Mineralization and microbial assimilation of ^{14}C-labeled straw in soils of organic and conventional agricultural systems
Lars Persson and **S. Olsson**	1141	Abiotic characteristics of soils suppressive to *Aphanomyces* root rot
Michelle M. Wander and **Xueming Yang**	1151	Influence of tillage on the dynamics of loose- and occluded-particulate and humified organic matter fractions
William W. Mohn and **Gordon R. Stewart**	1161	Limiting factors for hydrocarbon biodegradation at low temperature in Arctic soils
C. Garcia, T. Hernandez, A. Roldan, J. Albaladejo and **V. Castillo**	1173	Organic amendment and mycorrhizal inoculation as a practice in afforestation of soils with *Pinus halepensis* Miller: effect on their microbial activity
J. A. Parham and **S. P. Deng**	1183	Detection, quantification and characterization of β-glucosaminidase activity in soil
Martin Flegel and **Stefan Schrader**	1191	Importance of food quality on selected enzyme activities in earthworm casts (*Dendrobaena octaedra*, Lumbricidae)
Cathy Kurz, Marie-Madeleine Coûteaux and **Jean M. Thiéry**	1197	Residence time and decomposition rate of *Pinus pinaster* needles in a forest floor from direct field measurements under a Mediterranean climate
H. J. Montgomery , C. M. Monreal, J. C. Young and **K. A. Seifert**	1207	Determinination of soil fungal biomass from soil ergosterol analyses
M. Contin, S. Corcimaru, M. De Nobili and **P. C. Brookes**	1219	Temperature changes and the ATP concentration of the soil microbial biomass
R. L. Bradley, B. D. Titus and **C. P. Preston**	1227	Changes to mineral N cycling and microbial communities in black spruce humus after additions of $(NH_4)_2SO_4$ and condensed tannins extracted from *Kalmia angustifolia* and balsam fir
Pernille Nielsen and **Søren O. Petersen**	1241	Ester-linked polar lipid fatty acid profiles of soil microbial communities: a comparison of extraction methods and evaluation of interference from humic acids
M. K. Abbasi and **W. A. Adams**	1251	Gaseous N emission during simultaneous nitrification–denitrification associated with mineral N fertilization to a grassland soil under field conditions
Gary D. Bending and **Suzanne D. Lincoln**	1261	Inhibition of soil nitrifying bacteria communities and their activities by glucosinolate hydrolysis products
Andreas Kappler, Rong Ji and **Andreas Brune**	1271	Synthesis and characterization of specifically ^{14}C-labeled humic model compounds for feeding trials with soil-feeding termites
Rong Ji, Andreas Kappler and **Andreas Brune**	1281	Transformation and mineralization of synthetic ^{14}C-labeled humic model compounds by soil-feeding termites
Shingo Matsumoto, Noriharu Ae and **Makoto Yamagata**	1293	Extraction of mineralizable organic nitrogen from soils by a neutral phosphate buffer solution

Shingo Matsumoto, Noriharu Ae and **Makoto Yamagata** 1301 Possible direct uptake of organic nitrogen from soil by chingensai (*Brassica campestris* L.) and carrot (*Daucus carota* L.)

Short Communications

R. McGrath and **I. Singleton** 1311 Pentachlorophenol transformation in soil: a toxicological assessment

Andrei D. Pokarzhevskii, Nico M. Van Straalen and **Alexander M. Semenov** 1315 Agar as a medium for removing soil from earthworm guts

J. W. G. Cairney, N. A. Sawyer, J. M. Sharples and **A. A. Meharg** 1319 Intraspecific variation in nitrogen source utilisation by isolates of the ericoid mycorrhizal fungus *Hymenoscyphus Ericae* (Read) Korf and Kernan

A. Sowerby, A. S. Ball, T. R. G. Gray, P. C. D. Newton and **H. Clark** 1323 Elevated atmospheric [CO_2] from a natural soda spring affects the initial mineralization rates of naturally senesced C3 and C4 leaf litter

1329 Book Review

Volume 32 Number 10

S. M. Harper, G. L. Kerven, D.G Edwards and **Z. Ostatek-Boczynski** 1331 Characterisation of fulvic and humic acids from leaves of *Eucalyptus camaldulensis* and from decomposed hay

R. Bol, W. Amelung, C. Friedrich and **N. Ostle** 1337 Tracing dung-derived carbon in temperate grassland using ^{13}C natural abundance measurements

Joann K. Whalen, Peter J. Bottomley and **David D. Myrold** 1345 Carbon and nitrogen mineralization from light- and heavy-fraction additions to soil

Robert S. Dungan and **William T. Frankenberger Jr.** 1353 Factors affecting the volatilization of dimethylselenide by *Enterobacter cloacae* SLD1a-1

Alwyn Sowerby, Herbert Blum, Tim R. G. Gray and **Andrew S. Ball** 1359 The decomposition of *Lolium perenne* in soils exposed to elevated CO_2: comparisons of mass loss of litter with soil respiration and soil microbial biomass

Ian D. Bull, Chris J. Nott, Pim F. van Bergen, Paul R. Poulton and **Richard P. Evershed** 1367 Organic geochemical studies of soils from the Rothamsted classical experiments — VI. The occurrence and source of organic acids in an experimental grassland soil

M. I. Van Dyke and **J. I. Prosser** 1377 Enhanced survival of *Pseudomonas fluorescens* in soil following establishment of inoculum in a sterile soil carrier

Susan H. Watts and **Sybil P. Seitzinger** 1383 Denitrification rates in organic and mineral soils from riparian sites: a comparison of N_2 flux and acetylene inhibition methods

Elizabeth L. J. Watkin, Graham W. O'Hara, John G. Howieson and **Andrew R. Glenn** 1393 Identification of tolerance to soil acidity in inoculant strains of *Rhizobium leguminosarum* bv. *trifolii*

Jacek Kozdrój and **Jan Dirk van Elsas** 1405 Response of the bacterial community to root exudates in soil polluted with heavy metals assessed by molecular and cultural approaches

R. A. Drijber, J. W. Doran, A. M. Parkhurst and **D. J. Lyon** 1419 Changes in soil microbial community structure with tillage under long-term wheat-fallow management

S. A. Billings, D. D. Richter and **J. Yarie** 1431 Sensitivity of soil methane fluxes to reduced precipitation in boreal forest soils

Stig Olsson and **Sadhna Alström** 1443 Characterisation of bacteria in soils under barley monoculture and crop rotation

Short communications

Wei Shi and **Jeanette M. Norton** 1453 Microbial control of nitrate concentrations in an agricultural soil treated with dairy waste compost or ammonium fertilizer

N. La Scala Jr., J. Marques Jr., G. T. Pereira and **J. E. Cora** 1459 Short-term temporal changes in the spatial variability model of CO_2 emissions from a Brazilian bare soil

M. de A. Lira Jr. and **D. L. Smith** 1463 Use of a standard TWAIN scanner and software for nodule number determination on different legume species

N. La Scala Jr., J. Marques Jr., G. T. Pereira and **J. E. Corá** 1469 Carbon dioxide emission related to chemical properties of a tropical bare soil

I Forthcoming Papers

Volume 32 Numbers 11–12

Review Papers

Andrew A. Meharg and **John W. G. Cairney** 1475 Ectomycorrhizas — extending the capabilities of rhizosphere remediation?

Y. Kuzyakov, J. K. Friedel and **K. Stahr** 1485 Review of mechanisms and quantification of priming effects

Discussion Paper

Andrew Ogram 1499 Soil molecular microbial ecology at age 20: methodological challenges for the future

General Papers

S. Criquet, A. M. Farnet, S. Tagger and **J. Le Petit** 1505 Annual variations of phenoloxidase activities in an evergreen oak litter: influence of certain biotic and abiotic factors

Mariangela Hungria, Diva de S. Andrade, Lígia Maria de O. Chueire, Agustin Probanza, Francisco J. Guttierrez-Mañero and **Manuel Megías** 1515 Isolation and characterization of new efficient and competitive bean (*Phaseolus vulgaris* L.) rhizobia from Brazil

Jürgen K. Friedel, Anke Herrmann and **Markus Kleber** 1529 Ion exchange resin–soil mixtures as a tool in net nitrogen mineralisation studies

Zucong C. Cai and **Arvin R. Mosier** 1537 Effect of NH_4Cl addition on methane oxidation by paddy soils

Francisco J. Calderón, Louise E. Jackson, Kate M. Scow and **Dennis E. Rolston** 1547 Microbial responses to simulated tillage in cultivated and uncultivated soils

Martin H. Chantigny, Denis A. Angers and **Chantal J. Beauchamp** 1561 Decomposition of de-inking paper sludge in agricultural soils as characterized by carbohydrate analysis

Timo Domisch, Leena Finér, Raija Laiho, Marjut Karsisto and **Jukka Laine** 1571 Decomposition of Scots pine litter and the fate of released carbon in pristine and drained pine mires
